EXPERIENCE

- 2019** • **Software Developer, Summer Job**
Atlas Copco, Wilrijk
 - I worked in a department where they test filters used in compressors and analyse the data. My job was to process this data and automatically create reports with tables, graphs, etc.
- 2018 - 2014** • **Production Worker, Summer Job**
Atlas Copco, Wilrijk
 - I worked in the production to assemble compressors.
- 2013** • **Worker, Summer Job**
Elektro Fiver, Schriek
 - I worked together with a self-employed worker to reinstall the network cabling of a company. Among some various other activities.

EDUCATION

- 2020 - 2017** • **Professional Bachelor Applied Computer Science**
Thomas More - Campus Geel
 - Specialization in application development.
 - Exchange to Finland where I studied a semester in Business Information Technology (BIT) at HAMK.
 - Exchange to Brazil where I did my internship at PUC Minas in Belo Horizonte.
- 2017 - 2014** • **Professional Bachelor Elektromechanics**
Thomas More - Campus De Nayer
 - Specialization in process automation.
- 2014 - 2008** • **Elektromechanics (TSO)**
Sint-Lambertusinstituut, Heist-op-den-Berg

ABOUT ME

I enjoy working on projects with interesting challenges. The thrill of overcoming these challenges is what keeps me going.
